Sessions Description:

This is a quick summary of the session you are viewing

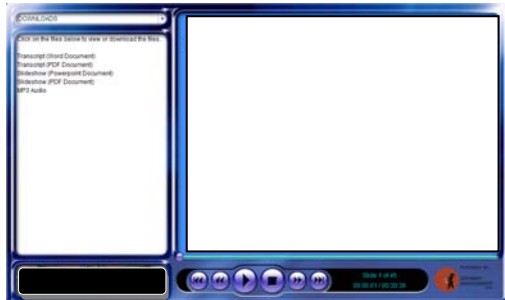

Speaker:

This section will give you the Speakers Bio

Disclosures/CE Information:

CE information provides you with more information about any CEs available for this session

Downloads:

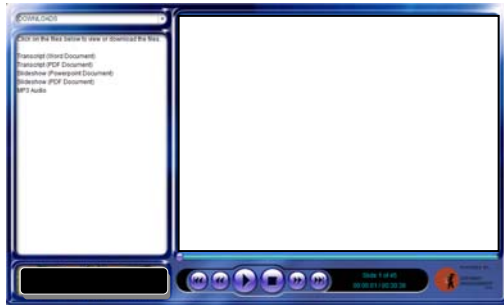

Provides you with all downloads including the audio files and any handouts provided to us by the speaker.

Transcript:

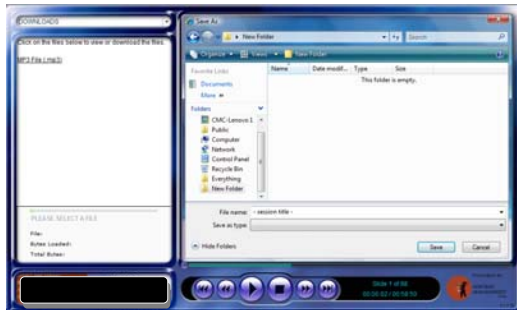

Any transcripts available from the speaker will be visible in this section

To Download any Available Files:

You will have the option to downloading the MP3 file or any available session material.

Select the “MP3file” to download the MP3 download. You will be prompted to place your file in a folder on your computer.

Select the folder you want to save to and allow the file to load (suggestion: save to your desktop for easy access)

You will see a green progress bar at the bottom of the left hand column.

The download is complete once the file has downloaded it will say “done”. You can enjoy the MP3 audio recording at anytime without the need for internet access.
