

Learn from the experts... Preserve the convention and all its invaluable information!

BIO 2006 is here and you have the unique opportunity to capture all its vital information. Listen once again to a motivating, informative address, or hear for the first time a compelling session that you may have missed. The CD-ROMs are complete with session PowerPoints (as submitted by speakers for inclusion) synchronized to digital audio. **ALL CD-ROMs will be delivered post convention.**

PLACE YOUR ORDER ON-SITE, AND RECEIVE UP TO 75% OFF NON-ATTENDEE PRICING

(To view a demo of the product, please ask to be directed to Content Management's sales desk)

All CD-ROMs will contain session PowerPoints synched to audio as submitted by speakers for inclusion

Biodefense

1-DAY TRACK \$95 (Non-Attendee \$195)

- Essential Elements of Commercialization of Technology: Preparing You to Interact with the U.S. Military
- Key Challenges in the Development and Scale-up of Cost-Effective Biodefense Vaccines
- BioShield Market Mechanism: Incentive or Disincentive
- Making the Food and Agricultural Supply Chain Safer with Biobased Security

Bioethics

1-DAY TRACK \$95 (Non-Attendee \$195)

- Bioethics at the Cutting Edge
- The Research Imperative: A Curse or a Cure?
- Personalized Medicine, Race-Based Drug Development and the Dilemma of, and Ethical Need for, Including Minorities in Clinical Trials
- Management of Conflicts of Interest

Business Development

3-DAY TRACK \$195 (Non-Attendee \$395)

- Yours, Mine and Ours: The Do's, Don'ts and Latest Trends in Co-Development
- Will M&A Sustain as the More Likely Biotech Exit: Implications for CEOs, the Venture Capital Business Model and Acquirers
- Outsourcing Biopharmaceutical Development in a Globalized Economy: What are the Strategic and Business Challenges of Outsourcing Across the Discovery, Development, and Manufacturing Value Chain?
- The Status and Future of Big Pharma Out-licensing and Spin-outs
- Anatomy of an Alliance: Pursuing International Partnerships That Will Drive Business Strategy
- Public-Private Partnerships for Translational Medicine
- One Molecule, Many Indications—Planning for Commercial Success
- The Second Date—Expanding Your Big Pharma Relationship
- Successors to the Blockbuster Model: Reversing the Decline in R&D Productivity and Prescription Drug Revenue Growth
- Show Me the Money vs. Show Me the Data: A Panel Discussion of Alliance Valuation
- Into the Black Hole: Successfully Approaching Pharma with your Licensing Opportunity
- Biotechnology at the Crossroads—Deciding Whether to Commercialize a Product Independently or with a Partner

Cancer

1-DAY TRACK \$95 (Non-Attendee \$195)

- New Approaches in Cancer Therapies
- Pharmacogenomics, Biomarkers and the Race for a Cure for Cancer: The Impact on Drug Discovery and Development
- Manipulating the Immune System to Fight Cancer
- NCI Guidance in Biologics Development for Oncology

Clinical Research/Clinical Trials

1-DAY TRACK \$95 (Non-Attendee \$195)

- Accelerating Discovery: The NIH Roadmap for Medical Research
- Clinical Trials Outside the United States and Western Europe: Opportunities and Challenges on the Path to Market
- Procedural and Substantive Issues in Oversight of Gene Transfer Research: IRB Review, IBC Review and Ethics
- The Economic Advantage of a Patient Advocacy Partnership in Clinical Trials Research

Devices and Diagnostics

1-DAY TRACK \$95 (Non-Attendee \$195)

- Companion Diagnostics: It's Not Just About a Better Drug
- Venturing into Diagnostics: Realizing the Value of the New Diagnostics
- Who's Going to Pay for It?
- Targeted Medicine—Biomarkers in the Discovery and Development Process Toward Value-added Diagnostics and Therapeutics
- Molecular Imaging: Disruption on the Horizon
- Cell and Gene Therapy for Chronic Disease: Promise and Challenges

Doing Business Globally

2-DAY TRACK \$145 (Non-Attendee \$295)

- Issues in International Biotechnological Technology Transfer: Russia
- Excellence Through Partnerships: EU Research Funding for Biotech R&D
- Cross-Border Dealmaking
- Doing Deals in Asia Pacific
- Developing and Managing Partnering Relationships with Japanese Pharmaceutical and Biotechnology Companies
- International Clinical Trials; Navigating the Quirks while Avoiding the Quagmires
- Crouching Tiger, Hidden Deal Risks: Survival Strategies for Doing Biopharmaceutical Deals in China
- Accessing Europe for U.S. Biotech—Partner or Go It Alone?

Drug Discovery and Development

2-DAY TRACK \$145 (Non-Attendee \$295)

- Perspectives on Bottlenecks in Small-Molecule Drug Discovery
- Grill the Experts: A Rare Opportunity to Ask Burning Questions
- Molecular Design of Protein Therapeutics: Considerations from Discovery through Development
- RNAi: Advancing Therapeutic Development
- Antibodies Revisited
- Advances in Membrane Protein Production
- Novel Approaches to GPCR Targets
- Making a Science out of Research and Development

Emerging Company Issues

3-DAY TRACK \$195 (Non-Attendee \$395)

- Key to Success—Finding the "Right" Application for Your Technology
- Mind the Gap: Will Pharma Fill the Early-Stage Biotech Financing Void?
- Power Dating: Cultivating Relationships with Venture Capitalists
- Fast Forward: Building Company Value Through Forward Integration
- Early-Stage Business Models in Neurological Disorders
- Therapeutic Area Focus: Early-Stage Business Models in Infectious Disease
- Therapeutic Area Focus: Early-Stage Business Models in Cancer
- Early-Stage Business Models in Metabolic Disorders
- Partnering Paradigms between Big Pharma/Big Bio and Emerging Biotech
- Remaining on Strategy Against All Odds
- Down and Dirty: Cleaning Up Down Rounds in VC Financing or How to Protect Your Investment Without Killing the Golden Goose

Emerging Markets

1-DAY TRACK \$95 (Non-Attendee \$195)

- Uncovering Opportunities in Emerging Markets—Innovative Strategies to Address Global Health and Improve Shareholder Value
- The Impact of the WTO's Decision Designed to Facilitate the Supply of Drugs by Less Developed Countries
- Innovative Partners in Developing Countries for Global Health

Finance

3-DAY TRACK \$195 (Non-Attendee \$395)

- Taking a Public Company Private: Going Private/Going Dark
- The Transformation of the Biomedical Marketplace
- Debt Utilization on the Rise: Key Stakeholders' Perspectives and Experiences
- Transatlantic Financing—Venture Capital, Corporate Venturing and Legal Issues
- Alternative Financing Models for Biopharmaceutical Companies
- Venture Capital Investments by Pharma—The Pros and Cons
- Considerations in Structuring Biotech M&A Transactions
- Emerging Models in Deconsolidation
- Short-Selling: How Can the Biotech Company Cope?
- U.S. Early-Stage Funding—Mirage or Oasis?
- Back to Life! Successful Restarts and Rebounds
- The Midwest Doorway to Start-Ups: MRUN (Midwest Research University Network)

Food and Agriculture

4-DAY TRACK \$245 (Non-Attendee \$495)

- A Decade of Experience with Plant Biotech: What's Been Gained, What's Been Learned, What Does the Future Hold?
- Impact of Genomics on Animal Agriculture
- What's in Store for the Future: The Next Generation of Biotech Benefits
- Agricultural Biotechnology and the Consumer
- Consumer Opinion's Impact on Regulation, Marketing, Funding and Business Survivability in Animal Biotech
- Agricultural Applications of Transgenic Livestock
- Livestock Cloning: Producer Applications, Consumer Benefits
- Animal ID and DNA Verification: Their Role in Health, Safety, Quality and Consistency
- Development of Food and Agriculture Biotechnology in Three Latin American Countries
- Adventitious Presence—Global Reality Behind the Forces of Nature
- Future Directions for Ag Biotech: Keys to Successful Partnerships
- Water, Water Everywhere and Not a Drop for Crops
- Measuring the Value of Agricultural IP: What's It Worth?
- Charting a Course to the Global Marketplace: A Dash of Clarity, a Dose of Complexity and a Boatload of Biotech Grain
- Plant-Made Pharmaceuticals—Challenges and Opportunities
- Driving New Vaccine Technologies from Concept to Market: The Animal Health Model
- Stem Cells in Plant Biotechnology—Industrial Use and Scientific Value
- Agricultural Biotechnology: Is It Working In Africa?

Global Health

1-DAY TRACK \$95 (Non-Attendee \$195)

1. Emerging Infectious Diseases: The Need for Effective Vaccines is Clear
2. Lessons Learned from Strategies Addressing HIV/AIDS in Sub-Saharan Africa
3. IPRs and Ethics from a Global Perch: The Case of the Human Papillomavirus (HPV) Vaccine for Cervical Cancer
4. The Business of Global Health—Moving to Market-Based Solutions

Hot Topics

2-DAY TRACK \$145 (Non-Attendee \$295)

1. USPTO Notice of Proposed Rules and Advanced Notice of Proposed Rules
2. Global Response to a Pandemic: The Scope for Addressing the Avian Influenza Threat
3. Barbarians at the Gate
4. The Third Wave in Biotech: New Routes to Profitability and Sustainability
5. Cutting the Cord: Emerging Power of Nonembryonic Stem Cells
6. Systems Biology—Where Do We Stand? Evaluating the Current and Future Impact on Therapeutic and Diagnostic Research Development
7. Patent Opposition Practice in the United States and Lessons Learned from Abroad
8. Trimming the Waistline of the Obesity Epidemic: Innovative Devices and Drugs Help America put the Fork Down

Industrial and Environmental

3-DAY TRACK \$195 (Non-Attendee \$395)

1. Adding Value to the Biorefinery: The Midwest Consortium for Sustainable Biobased Products and Energy
2. Biorefineries—From Crops to Cash
3. Building Solid Products on Wet Proteins
4. The Promise of a Genomics and Systems Approach to Accelerate the Development of Technologies for Biological Production of Ethanol
5. The Science of Improving Renewable Fuels
6. Biorenewables: Sustainable Growth Opportunities for the Chemical Industry
7. Bioethanol: From Fueling Cars to Driving the Biorefining Revolution
8. Biomass Pretreatment for Production of Sugar Followed by Fermentation of Sugar to Ethanol
9. Environmental Biotechnology—A Discipline Coming of Age
10. Biopolymers: Technology Advances and Production Capabilities
11. Early-Stage Financing in Industrial and Environmental Biotechnology
12. Recent Research Results of the Consortium for Applied Fundamentals and Innovation (CAFI)

Intellectual Property/Legal

3-DAY TRACK \$195 (Non-Attendee \$395)

1. The 2006 Finnegan Henderson Symposium on the Future of Biotechnology Patent Law
2. Views From the Hill 2006: Patent Legislation and Initiatives
3. What's New? Perspectives to and from the JPO, EPO and PTO!
4. Life Cycle Patent Management for Biotech Innovations
5. Executive Briefing on Recent Legal Trends in Biotech
6. How Different Is "Different": The Business of Patents in the U.S. after the Patent Reform Act
7. The Biotech Patent: To License or Litigate
8. Antibodies and Patents
9. Outsourcing in Asia: Speeding Drug Discovery for Biotech and Pharma
10. Does U.S. Patent Infringement Jurisprudence on Early-Stage Drug Research Force Outsourcing to Non-U.S. Locations?
11. New Developments in the Antitrust/Intellectual Property Interface in Biotechnology Markets
12. The Inequitable Conduct Minefield for Companies That Work with the FDA

BIO 2006 CONVENTION ORDER FORM

All CD-ROMS are covered by a lifetime guarantee - Defective CD-ROMS will be replaced free-of-charge * ALL SALES FINAL AFTER 30 DAYS - All returned CD-ROMS within 30 days subject to 25% restocking fee * We accept VISA, MC, AMEX, & personal/company checks payable to: CONTENT MANAGEMENT CORP.

_____ Track CD-ROMs (ATTENDEES)\$ _____

_____ Track CD-ROMs (NON-ATTENDEES)\$ _____

_____ Complete BIO CD-ROM Set \$495 (ATTENDEES)\$ _____

_____ Complete BIO CD-ROM Set \$2195 (NON-ATTENDEES) ...\$ _____

Shipping

in N. America: \$3-1st CD: \$1 ea. additional to a \$15 max\$ _____

Outside N. Amer. \$5-1st CD: \$2 ea. additional to \$75 max\$ _____

***** SPECIAL OFFER *****

TO ATTENDEES

Order all 24 Tracks (The Complete BIO Convention Tracks Listed) for only \$495 and save OVER 75% off the non-attendee price of \$2195

Manufacturing

2-DAY TRACK \$145

1. The New Path in Biopharmaceutical Manufacturing
2. Development and Optimization of Biotechnology Processes to Improve Robustness and Product Quality
3. New Technologies for Therapeutic Protein and Vaccine Design, Delivery and Manufacturing
4. Current Trends in the Design, Construction and Delivery of Large-Scale Bioprocess Facilities
5. Bioprocessing: Good Development Practices and Process Analytical Technology Integration
6. Frontiers and Economics of Mammalian Cell Expression
7. Consistency and Control of Antibody Production From Multiple Sites and Scales—Case Studies and Lessons Learned
8. Biocatalysis: Transforming Pharmaceutical Process Development and Manufacturing

Marketing

1-DAY TRACK \$95 (Non-Attendee \$195)

1. Launching Innovative Health-care Products—Strategies for Success
2. Performance Matters: Providers, Payment and Patients and the Changing Health-care Industry
3. The U.S. Market for Biotechnology: Opportunities and Challenges for Foreign Companies
4. Creating the Informed Patient: Placing Health-care Decisions Back in the Patient's Hands

Nanotechnology

1-DAY TRACK \$95 (Non-Attendee \$195)

1. Nanotechnology Applications in Drug Discovery and Development
2. Nanotechnology Applications in Drug Delivery
3. Nanotechnology Applications in Cancer Detection and Treatment
4. Nanotechnology Applications in Medical Imaging and Diagnostics

Policy

2-DAY TRACK \$145 (Non-Attendee \$295)

1. The Animal Rights Movement: Assess the Threat, Manage the Risk, Control the Damage
2. Access Restrictions and Disparities in Health Care
3. Food and Feed; Fiber and Fuels—Global Challenges of the Knowledge-Based Bio-Economy
4. Policy Issues in Vaccine Development: Ensuring Optimal Policy Frameworks
5. The Value of Personalized Medicine
6. Future of Medicare: Biotech Perspectives
7. CMS Collaborations: What Are the Implications?
8. Nanobiotechnology: Preparing for the Likely Public and Policy Issues

Public Relations/Investor Relations

2-DAY TRACK \$145 (Non-Attendee \$295)

1. The Street's Analysis, Perception and Prospects for Biotechnology Stocks in 2006 and Beyond
2. Why Don't They Love Biotech? – Part 3
3. Scientific Communications: A Key to the Future for Biotechnologies
4. Disclosure for Biotech: Lessons Learned and Best Practices in Dealing with the SEC and FDA
5. Guerrilla Media Tactics—Generating Buzz on Media Radar Without News
6. Biotechnology Innovation and the Media: Assessing the Cost of "Hyping" Expectations

Regenerative Medicine

2-DAY TRACK \$145 (Non-Attendee \$295)

1. Emerging Opportunities in Embryonic Stem Cell Medicine
2. Stem Cell and Cell Therapy From Inception to Market Launch: Companies Discuss Their Development and Commercialization
3. Stem Cell Research: The State of the Science and Policy
4. Stem Cell Research in Europe: How Do Industry and Academia Collaborate?
5. Advances and Adversity: Harnessing Stem Cells for Drug Discovery
6. Sizing Up Stem Cells: Science and Business
7. New Developments in California's Stem Cell Gold Rush
8. Organ-and Stem Cell-Regeneration Technologies

Regulatory

2-DAY TRACK \$145 (Non-Attendee \$295)

1. FDA Town Hall
2. Improving America's Health—A Survey of the Working Relationship Between the Life Science Industry and the FDA
3. How Will Europe and the United States Regulate Emerging Advanced Therapies?
4. Defending Against Counterfeit Biologics
5. Biologic/Device Combination Products—A Regulatory Perspective
6. Innovative Approaches to Improve Drug R&D in the European Union and the United States—One Year On
7. Fostering a Favorable Regulatory Environment for the Development of Personalized Medicine Products
8. FDA Regulation of Biotechnology Medical Devices

Technology Transfer/Licensing

2-DAY TRACK \$145 (Non-Attendee \$295)

1. Critical Success Factors in Advancing Academic Research from the Benchtop to the Patient
2. Really Crummy Deals
3. Licensing Research Tools: What's the Point?
4. Bridges Over the "Valley of Death": Pharmaceutical Translational Research Initiatives at Research Universities
5. Brave New Frontier: Advancing Stem Cell Therapy Into the Commercial Reality
6. Bridging the Gap Between Discovery Research and the Biotech Industry in North America and Europe
7. Accessing Government Technologies: Successes and Failures in Technology Transfer

TO ORDER AFTER THE CONVENTION:

BY PHONE: With your credit card, please call: **(800) 747-8069; (818) 957-0874**

BY MAIL: Complete this form, with payment to: **Content Management Corp., 3043 Foothill Blvd., Suite #2 La Crescenta, CA 91214**

BY FAX: FAX your order form with credit card information to: **(818) 957-0876** 24 hours/day; 7 days/week

ON-LINE: Visit our secure order site at: <http://www.softconference.com/260409>

BY EMAIL: Submit your order with credit card information to: **craigm@cmcgc.com**

When ordering, please identify program by #260409
