

# CALL FOR PROPOSALS

## **72<sup>nd</sup> CAMRT ANNUAL GENERAL CONFERENCE**

Edmonton, Alberta  
May 29 – June 1, 2014

***Deadline for proposal submission is Wednesday, October 23, 2013.***

The Canadian Association of Medical Radiation Technologists (CAMRT) invites technologists and other healthcare professionals to submit proposals for the conference's education sessions.

### **Mission**

The mission of the CAMRT Annual General Conference (AGC) is to provide medical radiation technologists (MRTs) with a meaningful continuing education experience that reflects the diversity and expertise of the medical radiation technology profession and that promotes inter-professional knowledge exchange.

### **Objectives**

The objectives of the AGC are to:

- showcase innovative research, policies and practices that are revolutionizing the profession of medical radiation technology
- provide a meeting ground for knowledge exchange among MRTs and other healthcare professionals from a range of disciplines and sectors
- highlight emerging technologies that have an impact on the medical radiation technology profession
- offer diverse presentation options that meet the full range of educational needs of conference participants and speakers
- provide an environment that offers both creditable formal education programs along with the informal learning that occurs through networking opportunities
